

Exhibitor Information

Name of Exhibitor	HORIBA Korea, Ltd	President	Urabe Hiroyuki
Address	25, Iljik-ro 94 gil, Manan-gu, Anyang- si, Gyeonggi-do, Republic of Korea	Country	Republic of Korea
Tel	82 (31) 296-7911	Fax	82 (31) 296-7913
Email		Website	www.horiba.com/kr
Contents of Exhibit	Raman spectrometers		

Introduction

HORIBA Scientific is the global team dedicated to meeting customers' present and future needs by integrating the scientific market expertise and resources of HORIBA.

HORIBA Scientific offerings encompass elemental analysis, molecular spectroscopy, surface science and particle sizing instrumentation. These products include high-performance spectroscopic instrumentation for Raman microscopy and spectroscopy, steady-state and TCSPC lifetime fluorescence spectroscopy, elemental analysis, particle characterization, spectroscopic ellipsometry, forensics, optical spectroscopy components and solutions, OEM spectrometers and cameras, Glow Discharge-OES, ICP-OES, Surface Plasmon Resonance imaging (SPRi), sulfur-in-oil analysis, water quality, and EDXRF.
