

Exhibitor Information

Name of Exhibitor	KOS,Inc. (주) 케이오에스	President	DaeHee Choi
Address	O213, Green-zone, ITECO, #150, Jojeong-daero, Hanam-city, Gyeonggi-do	Country	Korea
Tel	+82 2-486-7930	Fax	+82 2-486-7931
Email	hong@kosinc.co.kr	Website	http://www.kosinc.co.kr
Contents of Exhibit	Spectrometer, CCD & sCMOS Camera, TCSPC system, Laser, & Optics		

Introduction

KOS,Inc. has a lot of experience in the optical instruments field since 1997. We offer the best optical systems for customer's applications. We have supported many kinds of experiment equipments like Laser, Spectrometer, Detector, LightSource, Optics and various experimental components.

KOS,Inc. has a broad spectrum of Chemistry, Biology and Optical Engineering, not just Physics. We have installed variety of systems such as Fluorescence, Phosphorescence, Photoluminescence spectroscopy, Raman, TCSPC, High resolution Imaging and so on.

To meet the diverse needs of our customers, we have developed some new products. We have partnerships with the world's best companies that provide better products.

Optical industry is an important technology today, and it has unlimited potential for future.

We are the KOS,Inc. that try to provide the best satisfaction to our customers. For more informations, contact us today.
