

Exhibitor Information

| | | | |
|----------------------------|------------------------------------------------------------------------------------------------------------------------|------------------|--------------------|
| Name of Exhibitor | NOST Co., Ltd | President | Sungbin Ju |
| Address | 105~107, BI, Korea Electronics Technology Institute(KETI), 25, Saenari-ro, Bundang-gu, Seongnam-si, Gyeonggi-do, Korea | Country | KOREA |
| Tel | +82-31-548-2990 | Fax | +82-31-548-2991 |
| Email | nost@nostoptiks.com | Website | www.nostoptiks.com |
| Contents of Exhibit | FEX : Confocal micro Raman Mapping system ConfoVu : Laser Scanning Confocal Fluorescence Microscopy | | |

Introduction

NOST Co., Ltd. is a leading manufacturer of high performance optical spectroscopy and confocal microscopy products, including confocal Raman/PL microscope and laser scanning confocal fluorescence.

We design and develop the state-of-art optical products that customer really need.

Our PRISM-standalone type of micro PL imaging, FEX-confocal micro Raman spectroscopy with high speed chemical imaging technology, ConfoVu, fluorescence microscopy and customizing systems makes us the Number one Optical Solution Team for research and industrial applications.

We always listen to our customers' wish to provide the best suit optical solution with reasonable price and keeping their optimal performance
