<b>Email</b>		<b>Website</b>	<a href="http://www.technospex.com">www.technospex.com</a>
<b>Contents of Exhibit</b>	Raman Microspectroscopy System and UV-VIS-NIR Microspectroscopy System		

### Introduction

TechnoSpex Pte Ltd is a manufacturer and developer specializing in micro-spectroscopy for both scientific and industrial markets. We provide complete systems or compact modules that integrate seamlessly with the most upright dark field, polarization, DIC and/or fluorescence microscopes, with mapping capability option available.

Our uRaman and uSight series of products provide users with state-of-the-art spectroscopy measurement down to 1um spot size with research grade performance, and yet remains highly compact and affordable.
