

Exhibitor Information

Name of Exhibitor	Iridian Spectral Technologies	President	George Laframboise
Address	2700 Swansea Cres. Ottawa, ON, K2S 2A7	Country	CANADA
Tel	+1-613-741-4513	Fax	+1-613-741-9986
Email	sales@iridian.ca	Website	www.iridian.ca
Contents of Exhibit	Optical Filters for Raman Spectroscopy		
Introduction			
<p>Founded in 1998 and located in Ottawa, the capital city of Canada, Iridian is a world leader in optical thin film filter solutions for a wide range of applications. Iridian's highly advanced, proprietary dielectric thin film design, deposition and manufacturing technology delivers durable high performance optics for use in, point of care medical diagnostics, Raman and fluorescence spectroscopy, Mid IR applications such as gas sensors, as well as biophotonics and telecommunications, astronomy and space. Iridian takes pride in tailoring solutions for custom and OEM requirements for Raman spectroscopy and offers an extensive online catalogue of our standard Raman filter products. Iridian supports customers throughout their product's development; from initial prototype to volume manufacturing in our automated high volume production facility in order to ensure that the most cost effective optical solutions are provided.</p>
